Objectives of the ASLA Sustainable Design and Development PIG

To help collect and disseminate information on sustainable design practices and ideas within the field of landscape architecture and affiliated fields. This will be done through presence at organized meeting at, and presentations at, ALSA national and local conferences, the creation of a website, and possibly the creation of documents for distribution relating to the sustainable design focus of this group.

The *ASLA Sustainable Design and Development PIG's* secondary role but prime impetus is to provides the motivation, drive and framework for the development and implementation of LEED for Site Development rating system in collaboration with the USGBC and is particularly responsible for the development and implementation of business, marketing and operations plans for the smooth and effective operation of LEED for Site Development and for the ongoing refinement and development of the product.

The LEED Site Development product is particularly targeted toward the designer of a landscape site, park, infrastructure, or other non-building project, and towards the speculative designer or developer of a landscape site. LEED Site Development complements LEED for new Construction that is targeted at the owner, developed and occupied building, and the development of LEED Residential, and LEED multiple building.

ASLA Sustainable Design and Development PIG Structure

ASLA Sustainable Design and Development currently has a group of 11 core officers and one chair with a range of affiliations with booth the ASLA and The USGBC. The current chair is April Philips of April Philips Design Works.

Core officer and chair terms are 1 year, and the Chair will also serve for 2 years in Group members and Officers may serve up to 3 consecutive terms if approved by the Steering Committee.

ASLA Sustainable Design and Development PIG Communications

Written minutes will be taken at all Group meetings for web-site posting and distribution to Core and Corresponding Members. All other news and documents will be posted on the ASLA hosted website for all members to access. Emails to a members email list will be sent occasionally to notify members of important new information.
