LANDSCAPE ARCHITECTURAL ACCREDITATION BOARD

Mission

The mission of the Landscape Architectural Accreditation Board (LAAB) is to evaluate, advocate for, and advance the quality of education in landscape architectural programs.

LAAB is the accrediting organization for landscape architectural programs. As such, LAAB develops standards to objectively evaluate landscape architectural programs and judges whether a school's landscape architectural program is in compliance with the accreditation standards.

LAAB is comprised of landscape architecture practitioners and academicians, representatives from landscape architecture collateral organizations and public representatives. The collateral organizations are the American Society of Landscape Architects (ASLA), Council of Landscape Architectural Registration Boards (CLARB) and Council of Educators in Landscape Architecture (CELA).

Annual Reports

Content

Programs report to LAAB on:

- Substantial changes in their academic program
- Progress on recommendations from previous accreditation visits
- Students
- Graduates
- Budgets
- Faculty

Purpose

Annual reports from academic programs are used by LAAB monitor significant changes and verify ongoing compliance with accreditation standards in each program between on-site visits. Aggregate data from the reports is used to track trends in landscape architecture education and to communicate with stakeholders, other landscape architecture professional associations and organizations, and the public.

Summary

This summary includes information about the number of landscape architecture academic programs; substantial changes in the programs; their size and demographic composition; and, and the number of 2013 graduates and their career paths. Budget data reported reflects the unique administrative structure of each program and does not lend itself to aggregate reporting. Errors in faculty data reporting disallows accurate summarization of faculty numbers and composition. All information in the summary is presented as reported by the academic programs. 98% of the 93 accredited programs submitted a 2013 Annual Report.
