WHAT’S NEW AND HAPPENING IN THE MITTEN

Michigan ASLA 2016 Public Awareness Initiatives
Michigan Chapter of the American Society of Landscape Architects

LAFAYETTE GREENS
Detroit, Michigan
Hagenbuch Weikal Landscape Architecture
1. Increased the awards entry fee by $25 to cover MiASLA costs.
2. Revised the award criteria to require all entries to submit a 24x24” poster as a PDF.
3. Created an introductory poster to explain our profession.
5. Created a system for hanging the boards (Command hooks and wire).
6. Set up a gallery times with libraries around the state.
7. Deliver the boards and help set up! Promote on social media and web page.
Each year, the Michigan Chapter of the American Society of Landscape Architects (MiASLA) honors the best in landscape architecture in Michigan. MiASLA is excited to showcase entries to their 31st annual design awards program, which features projects from around the state including built projects and planning and research documents. This year, the 25 professional entries were judged in four project categories:

- **Landscape Architectural Design**
- **Landscape Planning and Analysis**
- **Landscape Architectural Research and Communication**
- **Landscape Architectural Sustainability**

Projects were judged by the Iowa Chapter of ASLA and winners were announced in September 2016. For a list of winning projects, visit michiganasla.org.

**What is Landscape Architecture?**

Landscape architects analyze, plan, design, and manage built and natural environments. They design parks, campuses, streetscapes, trails, plazas, and other projects that help define communities, and provide beautiful, functional, and sustainable spaces. Simply put, landscape architects design what’s outside buildings. They collaborate with architects, engineers, developers, and other professionals to design the built environment around you.
