### Planning for Spring

#### April is Landscape Architecture Month!

ASLA describes WLAM as "the month long celebration of landscape architecture and designed public and private spaces." WLAM is a collaboration between ASLA and the International Federation of Landscape Architects (IFLA). This is a chance for LA's to share the value we add to public and private spaces throughout the world.

WLAM will be celebrated with an Instagram campaign. From April - May, ASLA chapters from across the country will submit posts that celebrate local work.

Use #WLAM2019 to spread the word about great landscape architecture and the landscape architects who design it. Last year, #WLAM2018 reached nearly 3 million people.

Part of the campaign involves tagging images with "This is Landscape Architecture" signs. You can take a picture with the sign, or add it on after. To download and print signs, visit [ASLA.org](http://ASLA.org).
