# Q4

---

- ▶ Urban design is about making connections between people and places, movement and urban form, nature and the built fabric. Urban design draws together the many strands of place-making, environmental stewardship, social equity and economic viability into the creation of places with distinct beauty and identity.

# Q7

---

- ▶ Urban design demands a good understanding of a wide range of subjects from physical geography to social science and a general knowledge of disciplines such as real estate development, urban economics, political economy and social theory.

# Q2

---

- ▶ Urban design involves the arrangement and design of buildings, public spaces, transport systems, services, and amenities. Urban design is the process of giving form, shape, and character to groups of buildings, to whole neighborhoods, and the city.
