

## **Landscape Architect/ Project Manager**

Location: **Troy or Queensbury, NY**

Job Category: **Landscape Architecture**

Employment Duration: **Full time**

---

### **Description**

The Chazen Companies is seeking a full-time, energetic and talented landscape architect with a minimum of 5 years of experience in site design and construction. Through a collaborative design process, our Landscape Architects/Designers are engaged with a multi-disciplinary team to develop creative design solutions with technical proficiency and adherence to regulatory requirements for a variety of private and public sector projects.

The Chazen Companies has an immediate opportunity for an experienced Landscape Architect/Project Manager for a primary focus of work within the Capital District Area. Responsibilities include technical design and project management for public and private clients.

- Technical responsibilities include preparation of graphics/renderings, inventory, analyses and reports, development of detailed site, landscape and grading plans, storm water management design, construction detailing and writing technical specifications. Solid CADD design skills are required and experience with Civil 3D is a plus.
- Project management responsibilities include coordination of projects, client communication, development of proposals and technical approaches to projects, and participation in public presentations/speaking events. Experience in project management is integral to success for this position.

Qualifications are a B.S. in Landscape Architecture with 5-7 years of practical experience in a professional consulting environment. Registration as a Registered Landscape Architect (RLA) is not required. Candidates should be proficient in technical writing, have solid verbal and written communication skills, and be able to interact effectively with clients, project teams, and colleagues internally.

The Chazen Companies is an employee-owned, multi-disciplinary firm named by The Business Review as one of the Best Places to Work. We offer industry leading services in engineering, landscape architecture, surveying, environmental services and planning through our offices in Poughkeepsie, Troy, Queensbury and Syracuse, NY and Nashville, TN.

Celebrating our 70<sup>th</sup> anniversary, we focus on creating effective, long-term community and business partnerships and aim to deliver world class levels of performance to our clients. Chazen is committed to playing an active role in shaping healthy communities. We represent municipalities, state agencies, developers, landowners, utilities, institutions, industries and not-for-profits.

The Chazen Companies offer competitive compensation, comprehensive benefits (including our ESOP, training, professional development, membership in professional associations and much more), a great culture and a relaxed, collegial, team-based professional work atmosphere.

The Chazen Companies is an Equal Opportunity Employer.
