

Senior Landscape Architect

Crosby Schlessinger Smallridge is seeking an experienced and energetic landscape architect with strong leadership skills. We are a planning and design firm with award winning work that includes urban parks, greenways, academic institutions and master plans. The Senior Landscape Architect will be responsible for design and delivery of landscape architectural projects with goals of strong design and technical execution; managing project teams, maintaining existing clients and developing new business. Strong design and communications skills required. Job includes actively participating in the firm's dialogue about design delivery and marketing, and helping others to grow. The position offers opportunity to advance.

We offer highly competitive benefits including 401K, medical and dental insurance. Salary is commensurate with experience.

Requirements:

Minimum 15 years professional experience
