

Why Bowman Consulting?

At Bowman Consulting, we believe in creating opportunities for aspiring people to thrive and achieve ambitious goals. That's why a career at Bowman Consulting is more than a job. It is an opportunity to be part of a diverse and engaged community of professionals, to be treated as a respected and valued member of a motivated team and to be empowered to do exceptional work that advances the best interest of everyone involved in it. We recognize the importance of creating a work environment that is both rewarding to our employees and supportive of our unwavering commitment to provide unparalleled service to our clients.

We are currently seeking a Landscape Architect with a minimum of 5 years' experience to join our Fairfax, VA office in Chantilly, VA.

Primary Duties and Responsibilities:

- Assist or lead in the execution of landscape architectural design on assigned projects within a multidisciplinary collaborative setting.
- Prepare hardscape and landscape plans for urban settings, streetscapes, parks and recreation, etc. including entitlement, site plan and construction documents.
- Prepare graphics and presentation packages.
- Carry out technical and administrative assignments, tabulations, cost estimates, etc.
- Conduct research and prepare construction details and specifications.
- Assist in performing onsite inspections during construction and coordinate design requirements with contractors and equipment suppliers.
- May utilize and assist less experienced staff in understanding technical policies and procedures during the execution of projects for clients.
- Consult with clients, engineers, and architects on specifications and needs of overall projects.
- Participate on project teams and in project meetings.
- Written report presentation.
- Actively participate in professional organizations where the technical reputation and image of the company may be enhanced.

Position Requirements:

- Bachelor's degree in Landscape Architecture.
- Possess a valid landscape architecture license, Virginia and/or Maryland preferred.
- Minimum of five (5) years of proven experience in landscape architectural design and construction detailing.
- Demonstrate proficiency in Conceptual Design through Construction Documents, including hand sketches.
- Strong, creative design and good graphic production skills.
- Proficiency with AutoCad and presentation graphics programs such as Photoshop, InDesign, Sketchup and MS.
- Employment history in a design-driven studio environment is preferred.
- Have technical knowledge of landscape architectural construction methods including codes and development regulations for local jurisdictions.

- Have a good working knowledge of landscape and native plants in the Mid-Atlantic region.
- Proficiency in effectively presenting information and responding to questions from groups of managers, clients, and the public in a presentation format.
- Be a team player able to contribute and work in a collaborative environment.
- Have excellent interpersonal and communication skills.
- Proficiency in written, oral and graphic communication.
- Eligible to work in the United States.

These additional skills and qualifications are desired:

- Experience in Metropolitan Washington D.C. area jurisdictions.

Note: The position description is intended as a summary only of key duties. Other related duties may be assigned as appropriate.
