

# **hord | coplan | macht**

**Hord Coplan Macht** is a highly collaborative, multi-disciplinary design firm with over 250 people in three offices nationally. Our landscape architecture studio serves a diverse clientele on a broad range of project types including educational campuses, urban design, parks, plazas, mixed-use development and restoration of historic landscapes.

If you desire immersion and integration with multiple disciplines, Hord Coplan Macht is for you! Our Denver office has approximately 70 staff including architects, interior designers, landscape architects, sustainability experts, graphic designers and marketing staff. Our studio environment provides an excellent opportunity to grow professionally while engaging with a dynamic, energizing and creative group of professionals.

Our Denver landscape architecture studio is continuing to grow. We are seeking a talented and passionate landscape architect with a Bachelor's or Master's degree in landscape architecture to support our newly established and growing landscape architecture studio in the Denver office.

Our most important asset is our people. We have a mentorship program in place to help develop staff to their full potential, review goals annually and support licensure. Annually we climb a 14er together, give back to our local community by participating in the Green Apple Day of Service, and celebrate the end of the year with a holiday party! If you are looking for a firm that works hard in and outside of the office, adventures together and gives back to the community you've found the right place!

We offer competitive compensation and excellent benefit package.

If you would like an opportunity to grow professionally and be part of a dedicated and growing team, we want to hear from you!

## **4-7 Years' Experience**

Our ideal candidate will be a creative person who is driven and self-motivated. The successful candidate will have strong team collaboration skills and a strong knowledge and experience of the design process.

### **Additional qualifications include:**

- Excellent interpersonal, leadership, and communication skills;
- Demonstrated excellence in creative design solutions and ability to design and communicate those designs graphically and verbally;
- Experience preparing highly detailed construction documents and specifications;
- Demonstrated excellence in Conceptual Design through Construction Documents, including hand sketches and AutoCAD;
- Strong 3-D graphic capabilities preferred with experience in Sketch-Up and Lumion, V-Ray or 3DS Max;
- Revit experience preferred and a plus;

- Demonstrated excellence in presentation graphics programs, such as Adobe Creative Suite (InDesign, Illustrator, and Photoshop);
- Ability to prioritize and concurrently service multiple projects;
- Strong design and critical thinking abilities;
- Professional licensure preferred but not required.

To apply, contact Zoe Malfetti, HR & Benefits Manager, at [HRlandscape@hcm2.com](mailto:HRlandscape@hcm2.com). Please respond by including a cover letter, resume and sample portfolio (in PDF format).
