

HOERRSCHAUDT

landscape architects

Title – Landscape Designer

Location - Chicago, Illinois

Experience – 1-3 years

Hoerr Schaudt is currently seeking a talented landscape designer to work with various project managers of our firm in a “right-hand-man” project support role. We are looking for a candidate that is collaborative and willing to take a proactive, “no task is too small” attitude towards everything you do. Excellent graphic communication skills are a prerequisite. We need someone who takes ownership in their work and who is accountable for checking each task for completeness and accuracy. The ideal candidate will be self-governing and refuse to let challenges stop their accomplishment of a task. We are looking for someone skilled at problem solving who is comfortable finding alternative solutions and navigating around ‘roadblocks’ in order to offer the most effective support to the team and their project manager(s).

Day to day tasks will include, but are not limited to:

Drawing and rendering

Creating physical and Sketch Up models

Research / information gathering

Detail development

CD sets

Takeoffs / budgeting

Attend client and contractor meetings for the purposes of listening and note taking

Attend design review meetings for the purposes of listening and note taking

Meeting minutes

These are just some of the general tasks that you will be performing. All in all, we are a results driven company. We need you to be a vital team member - you will be expected to know as much as possible about each one of the projects you are involved in. Flexibility is a plus and we hope you are up for the challenge.
