

Title - Project Manager

Location – Chicago IL

Experience – Minimum 5 years

Hoerr Schaudt Landscape Architects, Inc is currently seeking an individual with expertise in landscape construction observation and project management. We are a dynamic and growing firm with a commitment to innovative design and the highest quality in our built projects.

Successful candidates:

- Will have a minimum 5 years of landscape architecture and/or landscape construction experience in private and public projects
- Are licensed or have relevant certifications.
- Are very organized, process driven, self-starters
- Demand adherence to high quality and performance standards
- Have a very strong work ethic and exceptional communication skills
- Enjoy working in a very fast paced environment both independently and as a team member
- Possess both a strong technical aptitude and keen design sense
- Have significant project budgeting experience
- Have a high level of proficiency in Autocad, Adobe Suite, Sketchup and Microsoft Office

Efforts will include:

- Analysis of site opportunities and limitations
- Materials specification
- Redlining drawing sets
- Plant tagging
- Site construction observation
- Communication within project teams
- Reviewing and processing submittals
