

Project Manager/ Landscape Architect

Experience Required: 7+ years

J. Mendoza Gardens (JMG) is a small design/build firm known for its solutions to the complicated design problems of urban rooftops/penthouses. JMG serves as the landscape architectural design division of Blondie's Treehouse. Working within the confines of restrictive weight allowances, climate variations and regulatory hurdles, a JMG design transforms problematic spaces into unique and stunning landscapes. BTH is one of the largest horticultural firms in the United States, with a warehouse and greenhouse facilities in Mamaroneck and design/sales offices in Manhattan.

JMG is seeking a self-motivated leader with a minimum of 7+ years experience in an urban environment. Our ideal candidate must possess extensive design and construction management experience in a supervisory capacity as well as detailed construction documentation skills; proven ability to solve design problems in a proficient manner and site/construction management and supervision experience. A background in cost estimating, construction or engineering is a plus.

The ideal candidate has a strong eye for form & composition, detail oriented, solution driven individual who possesses knowledge related to the design and construction of landscape elements utilized in rooftop garden construction. Selected candidate will work directly with principals, clients, sales staff and junior designers in the design, detailing and coordination of numerous projects.

Potential incumbents will be involved in new business development, including authoring design and construction proposals/bids for projects of varying scales and managing the construction administration with our in-house construction division and our team of sub-contractors. Excellent written, verbal and graphic communication skills are essential.

Proficiency in AutoCad, Adobe CS, Microsoft Office Suite are required. A working knowledge of Rhino 3d and/or 3DS Max is highly desired.

Education requirements: Applicants must hold a Bachelor and/or Masters degree in landscape architecture from an accredited program.

Professional registration in New York State is highly desired. Experienced plantsmanship is a plus. Please provide resume/cv in pdf format and a digital portfolio of selected works.
