

Matrix Design Group is seeking a Landscape Architect for our Denver office to assist on a wide variety of public and private sector planning and design projects. Matrix is a multi-disciplinary planning, engineering and design firm providing integrated design solutions for projects ranging from small site developments to large-scale, public infrastructure improvements.

Responsibilities:

- Preparation and coordination of conceptual, schematic, design development and construction documents for a variety of site development project types.
- Preparation and coordination of project graphics, 2D and 3D visualization and hand renderings for client presentation.
- Preparation of construction details and technical specifications.
- Preparation of site development quantities and construction cost estimates.
- Preparation of project presentations and supporting graphic communications.
- Assistance to senior level staff in preparing project submittals and presentation materials.
- Knowledge of Colorado and Denver metropolitan area planning review and approval process for site development and landscape architectural submittals.

Skills and Qualifications:

- Bachelor's or Master's degree in Landscape Architecture.
- Licensed landscape architect preferred but not required.
- One to five (1-5) years of professional planning and design experience.
- High degree of demonstrated proficiency with AutoCAD, Sketch Up, Adobe Creative Suite, and related CAD-based and 3D rendering programs.
- Understanding and familiarity with Lumion 3D rendering software and similar applications is highly desirable but not required.
- Capability to hand draw and illustrate conceptual and schematic site concepts.
- Proven experience in planning and design projects from conceptual design to construction documentation and including urban design, parks and recreation, waterfronts, resorts and master planned communities.

To apply for this position, complete the online application and upload your resume and relevant work samples.
