

Verdone Landscape Architects (VLA,PC) is seeking a creative and motivated person, to assist in the planning, design, and construction details of landscape architecture projects, while collaborating with VLA team. Architects, Engineers, and Landscape Architects with 5 - 10 years of experience will be considered. Position requires a College Degree, proficiency in CAD, Land FX or similar drafting software, Microsoft Office, and Photoshop. Top priority are time management, problem solving and organizational skills, excellent design skills, proficiency in producing detailed construction documents, excellent verbal and graphic communication skills, along with the ability to deliver clear solutions to Principals. Willingness to continue to learn is valued, while consistently using VLA graphic and design standards. We are looking for someone with initiative to enhance communication between Principals and VLA team, while disseminating ideas to staff.

VLA offers a competitive salary and benefits package, based upon abilities and experience.

VLA,PC is an award winning firm established in 1980 to provide expertise in land planning, and site and landscape design. Our philosophy of land stewardship has credited our firm with many awards and features for environmental planning and ecological responsibility. Representative work can be seen at www.verdonelandarch.com. Please send resume and work examples to VLA,PC., PO Box 4759, Jackson, WY 83001 or janice@verdonelandarch.com. Attachments must be well identified.

Jackson, Wyoming is a resort community located close to both Yellowstone and Grand Teton National Parks. A variety of recreational opportunities exist year round, including resort skiing, backcountry touring, hiking, boating, mountain biking and world class fishing.
