

Landscape Architect – San Francisco

Overview

We are pleased to announce new opportunities to join our team. With roots extending back to a two-person partnership formed in 1898 **Page Southernland Page, Inc.** is today one of the most prolific and enduring architectural and engineering practices. A full-service design organization with offices in Houston, Austin, Dallas, Denver, San Francisco and Washington DC, Page provides architecture, interiors, consulting and engineering services throughout the United States and around the world. The firm's diverse, international portfolio includes projects in the healthcare, academic, government and science and technology sectors, as well as civic, corporate and urban housing projects. With a staff of over 450 architects, engineers, designers, strategic analysts, planners and technical specialists, Page has the resources and professional affiliations to responsibly handle projects of all scales and schedules.

Page is a national, award-winning design and planning firm with offices in six offices across the U.S. The firm has a large, international portfolio of high-profile projects which includes built urban streets, plazas and public places, colleges and university campuses, transportation-related planning and design, and urban design for city districts, neighborhoods and waterfront districts.

We are currently seeking to fill a position in our San Francisco office for a highly motivated and creative landscape architect. The San Francisco office is multidisciplinary and highly collaborative. This is an opportunity for a creative individual with energy and initiative to have a key role in our expanding design practice.

Responsibilities:

- Collaborate with other landscape architects, planners, and architects, as well as other consultants and team members, to create integrated, sustainable and memorable solutions to complex design and planning problems
- Assist with the design development process
- Assist with the preparation of landscape construction drawings, details, and specifications
- Assist with construction administration
- Prepare graphics to support landscape, planning and urban design projects
- Assist with project management, including coordination with clients and sub-consultants

Required Skills and Qualifications:

- Professional degree in landscape architecture (BLA or MLA)
- 3-7 years of professional experience
- Strong design, graphic and communication skills
- Written and verbal proficiency in English
- Proficiency in a variety of graphic software applications including AutoCAD (preparation of construction documents), GIS, and Adobe Creative Suite (InDesign, Photoshop, Illustrator)
- Knowledge of Sketch-Up, 3-D Studio Max and other 3D visualization software is preferred
- Experience or interest in related fields – planning, urban design, and architecture – is highly desirable
- Experience within California is preferred

Please provide work samples.

Page offers generous benefits and a collaborative, creative working environment. Salary commensurate with experience.

Pursuant to the San Francisco Fair Chance Ordinance, we will consider for employment qualified applicants with arrest and conviction records
