

Design Studio Lead Opportunity (Dallas, TX)

Alta Planning + Design is seeking a Senior Designer or Senior Engineer with a background in Landscape Architecture or Engineering to serve as head of our Texas Design Studio to compliment our existing Dallas office. This is a **unique opportunity for an experienced landscape architecture or engineering professional** to take a principal-track leadership role working on high-profile active transportation projects in this dynamic region, which includes offices in St. Louis, Arkansas, Chicago, and Minneapolis.

Alta Planning + Design is a full service consulting firm providing landscape architecture, engineering and planning services in the areas of progressive and sustainable transportation and recreation solutions, including urban design, placemaking, corridor design, parks, and greenways. Alta is a world-leader in areas such as bicycle, pedestrian, trail, park, greenway, roadway planning, complete streets, tactical urbanism, design, and implementation, in addition to outreach and education programs. Alta is a fast-growing and dynamic company with 200+ staff working in a collaborative fashion from 35 offices in the U.S. and Canada. Alta's mission is to help ensure that every community offers a full range of mobility and recreation options for people of all ages, interests, and abilities.

As Studio head, you will **guide and mentor** a team of talented design professionals, helping them grow, helping them meet our clients' needs, and helping them collaborate with other Alta professionals to take projects from vision to implementation. You'll **manage** some of our most **high-profile projects**, establish and **oversee** the design staff in the central region and project teams working in the State of Texas, serve as a regional leader, and **lead** marketing activities throughout the region. You'll solidify Alta's reputation as a trusted advisor and expert, and contribute to the continued growth and success of the Dallas office.

We're seeking an experienced professional who has a **knowledge of and interest in active transportation**, advancing technology in active transportation, has strong people and project management skills, and is looking for the next challenge in their career. As a Senior Associate/Principal Track you must have at least a Bachelor's degree in Engineering or Landscape Architecture, with a Master's degree is preferable. We are looking for at least 10 years in a consulting environment or public entity, have five or more years working as a Project Manager and have at least that much experience managing staff. Licensure as an RLA or PE would be preferred.

Alta Planning + Design offers competitive salaries (\$100,000 - \$150,000 for this position DOE), opportunities for advancement including company ownership, great benefits including wellness and bike benefits, 21 days of paid time off to start, 10 paid holidays and a five year travel award, flexible work schedules, wellness and bike benefits, work-life balance, advancement opportunities and welcoming – and fun – work environments for our employees. Alta employees “walk the talk” and are passionate about creating livable and healthy communities.
