

Haygood & Associates (H&A) is an award-winning landscape architecture firm specializing in highways, light rail facilities and municipal streetscapes. H&A values excellence in design + product + performance + client satisfaction. Services include landscape architecture conceptual designs, PS&E construction documents and construction support services for landscape and hardscape features. H&A designs the aesthetic features for highway bridges, retaining walls, soundwalls and gateways. In the environmental sector, the company provides visual resources surveys and visual impact technical reports.

H&A is seeking an experienced production associate with a minimum of 6 years of post-grad employment in a landscape architecture office or combined experience with a highway civil engineering firm. The experience must include CA state highway projects. The candidate must be proficient in full versions of Microstation, Excel and MS Word. Production of plans, specifications, cost estimates, correspondence and accuracy in QC tasks are required. Candidate must be living in the San Francisco Bay Area and work in the firm's Albany office Monday through Friday. The salary is commensurate with experience. Health and retirement plans are included.

Email your resume and a PDF file of construction documents for one highway project that is representative of your document production work.
