

# Landscape Designer / Draftsperson (Santa Barbara)

compensation: **To be determined based on experience.**

employment type: **employee's choice**

Position is available immediately.

CJM::LA is a Landscape Architecture Studio in Santa Barbara, CA. Our office currently employs three professionals as well as a number of independent consultants.

We are seeking an energetic, proactive and creative designer/draftsperson to join our team in downtown Santa Barbara. Our current project slate includes multi-family, commercial, hospitality and estate residential projects within the greater Santa Barbara and Los Angeles areas. Candidates must have a minimum of 2-3 years experience at a professional landscape architecture office, a degree in landscape architecture and the following:

## Required Qualifications:

- Proficient in AutoCAD. Current experience working on construction drawings in CAD with knowledge of key commands.
- Experience with execution of production drawings.
- Excellent writing, communication skills.
- Experience producing construction drawings including construction layout plans, construction details and planting plans.
- Knowledge of construction methods and materials.
- Working knowledge of Photoshop, InDesign and Microsoft Office.
- Proficient with Windows operating systems and PC-based work.
- Specific attention to detail and ability to prepare clear, concise graphics.

## Desired Qualifications:

- Knowledge of local plant palettes.
- Ability to employ creative problem-solving skills in investigating potential design solutions.
- Experience with local plan check procedures and project permitting.
- Experience with multi-family residential, commercial and hospitality projects.
- Experience with construction phase services including construction administration and site observation.
- Excellent freehand drawing skills.
- Organized and professionally motivated, with strong design skills and intuition.
- Comfortable collaborating or working independently.

## Beneficial Qualifications:

- Demonstrated experience with irrigation design.
- Working knowledge of Land FX, SketchUp, Rhino or other 3-D programs.

- Experience with graphic design.

Position will include work on large-scale commercial and residential projects; including the preparation of preliminary plans and schematic exhibits, preparation of working drawings, attendance at client meetings and collaboration with the design team to achieve beautiful, functional and exceptional properties.
