

# Landscape Architect/Recreation Planner

Corvus Design, Inc

Website Link: <http://www.corvus-design.com/about/employment-recreation/>

We are an Alaskan landscape architecture firm looking for an entry or mid-level landscape architect or planner (2+ years experience) to work in our Juneau office. Beyond traditional landscape architectural skills, you will ideally have experience with recreation planning, design and implementation with entities such as local and state parks, BLM, NPS and USFS. Specific work may include visual/scenery resource management, master planning, design narratives, conceptual design through construction documentation, cost estimation, bid period services, construction administration and observation, and post-occupancy evaluations. Your work will be throughout Southeast Alaska, including remote field locations, in addition to opportunities to work on projects in the rest of Alaska through our Anchorage office. This position may have the option of being based from our Anchorage office.

## DESCRIPTION

- Traditional landscape architectural or planning skills and experience
- Experience working in the field of parks and recreational planning
- Develops plans and designs for recreation sites (picnic and camping sites, winter sports, boating/harbor facilities, urban and remote trails, play areas, plazas and urban parks, etc...)
- Conducts surveys and examines how existing recreation areas can be improved
- Prepare cost estimation
- Helps write environmental reports with an understanding of NEPA process related to recreation and scenery resources
- Participates in environmental analysis of proposed projects
- Possess excellent communication skills for relations with clients, stakeholders, and the public
- Capability to design presentations, present project updates and project results in public hearings or stakeholder meetings
- Ability to work in both small urban communities and remote locations.

## LICENSURE

Landscape architectural licensure or planning credentials are a benefit.

## EDUCATION

Bachelor and/or Master's degree in landscape architecture from an ASLA accredited program. Equivalent planning education will also be considered.

## LOCATION

Juneau is a small city with no road access located in Southeast Alaska. Juneau is known for its outstanding recreation, picturesque landscape, vibrant arts and culture, local food scene, and being a hub for connecting to communities in Southeast. The community provides all essential services, but due to being remote, there are some limitations on local services and opportunities.

## APPLICATION

Please send an email to [HR@corvus-design.com](mailto:HR@corvus-design.com) with initial information that you feel encapsulates your experience and what you would bring to this role. We will then follow up you.

## TITLE:

- Landscape Architect/Recreation Planner (2+ Years Experience)

## LOCATION:

- Juneau, Alaska, 99801

## SOFTWARE:

- You should have a high level of proficiency in AutoCAD, Adobe CS and MS Office.
- Knowledge of SketchUp, Lumion, ARCGIS, 3D Max, Civil 3D and/or other related software packages is of benefit.
- We like to tinker and hack, so if you have coding knowledge and Maker skills, let us know.

## PROCESS:

- Setting expectations and maintaining schedules are our critical services. You will have your own set of developed project management skills where you work efficiently, and enable the same in those around you.
- We rely on CAD standards, QA/QC standards, standard filing methods, and similar, in order to allow us to focus on the fun. If you immediately recognize the value and beauty of this, you're on the right track.
- Knowledge of administrative and management principles.
- Skill in relaying both technical and non-technical information effectively. You can provide people insight into complex data.
- Willingness to assume responsibility for work products and decisions made.
