## Landscape Architect / Designer – Mid-level Los Angeles, CA

ARTECHO Architecture and Landscape Architecture is an award-winning and internationally published firm based in Venice, California. ARTECHO is committed to creating artful, striking, and vibrant landscapes with a high level of design excellence and ecological sensitivity. The firm's work is currently focused on all sizes of residential and institutional landscapes as well as on municipal urban forest master plans.

Job responsibilities will include all phases of design and project management. As a small, hands-on, collaborative design practice, we are seeking candidates with strong design and communication skills who are self-directed and dedicated to problem-solving. The ideal candidate has 3+ years of design and project management experience in a landscape architecture or architecture office and has a strong sense of materials and detailing. Additionally, the ideal candidate has first-hand knowledge of plants adapted to the Mediterranean climate of Los Angeles, especially plants native to Southern California, Australia, and South Africa.

Please send letter of interest, resume, and portfolio/work samples to: [artecho@artecho.com](mailto:artecho@artecho.com).
