

Landscape Designer / Landscape Architect – Tyler, Texas

EMPLOYMENT TYPE: Full Time

ABOUT US: We are a Landscape Architecture Firm specializing in Design and Build. We engage in everything from small residential backyards to larger developments and civic planning projects. Here at Landvisions, our work is an extension of WHO we are. We work outdoors because we are outdoor enthusiasts. We build playful spaces because we love to play. We think creatively because we love the act of creating and want others to be inspired by the results of our work. Most of all, we care about people. At Landvisions, we desire for our work to be a literal extension of who we are and the utilization of our natural strengths and talents to benefit the lives of those around us, including both our co-workers AND clients. However, while we ARE passionate about the outdoors and about people, we believe that life is richer when we SHARE these experiences with others in natural outdoor environments. There is a symbiotic relationship we humans have with nature and we strive to honor that. We thrive on helping others enjoy relational time outdoors and we value the journey that we take in helping to collectively achieve this. This is why we do everything we do. At the root level of Landvisions...We design and build natural environments to help humans thrive outdoors.

ABOUT YOU: You are a Smart-Creative with a passion for life, people and the outdoors. You chose Landscape Design or Landscape Architecture because you believe that being outside enhances our relationship to one another. You have a keen eye, always looking for beauty and aware of the smallest details. You THRIVE AMIDST AMBIGUITY and are a self-starter with the ability to nurture a design from concept to completion. You're a LEARNER with a continuous improvement mindset. IMAGINATIVE, SELF CONFIDENT, and AMBITIOUS are words your friends might use to define you and your personality. You would prefer to work within a group rather than by yourself, valuing the process of collaboration, even when it gets a little messy.

ABOUT THIS POSITION: We are looking for a Landscape Designer / Landscape Architect with 5-10 yrs of experience and a Bachelor of Science degree in Landscape Architecture or Landscape Design from an accredited University. Solid skills in AutoCAD, Sketch-up, Photo Shop and InDesign preferred. This position will be primarily focused on the production and delivery of innovative and unique designs with a strong graphic interface. Successful candidates should be well rounded and have experience with design, design development, construction documents, and the construction administration process. This person will work in all phases of the design process: from conceptual design through construction documentation with interaction with clients, architects, engineers, and other professional team players. The candidate should be innovative, have strong ideas, a responsible work ethic and be proficient in hand and digital graphics. There will be opportunities to get into the field on regular basis to ensure quality design and successful implementation. We work Monday – Friday. Weekend's off!!

BENEFITS:

- Competitive Pay Based on performance and experience
- Profit Sharing and 401K program
- Health insurance
