Seeking Senior-Level Landscape Architect with Experience in Project Management, Construction Documents and Field Observation

SWA is an award-winning, international landscape architecture, planning, and urban design firm with offices in California, Texas, New York and Shanghai. We are currently seeking talented, design-oriented landscape architects to fulfill substantial roles in our Los Angeles office. Our work is recognized for its visionary aesthetics, exceptional functionality, keen understanding of social design, and strong emphasis on environmental sustainability.

Candidates are required to submit a resume and an extensive portfolio of built projects and drawing sets highlighting Construction Documents, materials and details. The ideal candidate will have at minimum 8-10 year work experience in a landscape architecture firm in the US.

Minimum Requirements:

1. Bachelor's Degree in Landscape Architecture
2. Strong construction detail skills (on-structure/on-grade)
3. Proficiency with Auto CAD, Sketch-Up, Rhino, Adobe Illustrator and Photoshop
4. Demonstrated ability in Construction Documents and Specifications
6. Extensive experience in Construction Administration and Field Observation
7. Project management/project coordination
8. Strong communication skills
9. Effective time management skills
10. Attention to detail

Competitive salary depending on experience; excellent benefits including Employee Stock Ownership Program, Profit Sharing, 401K, Health Insurance.
