

Established and growing professional office in San Antonio is currently seeking Landscape Architects of all levels, from recent graduates through senior-level principal-track project managers, to join our staff. Our portfolio of built and under-construction projects features a diverse array of both private and public sector works, including the following:

- Community Amenity Centers, Sports Parks, and Recreation Centers
- Entry Monuments, Parkways, and Streetscapes
- Retail, Office, and Mixed-Use Developments
- Churches, Schools, and Institutional Facilities
- Courtyards, Plazas, and Community Spaces
- Sports Facilities and Golf Courses
- Industrial Parks

Our horizontally-structured small office, healthy workload, and aggressive marketing will afford the motivated, capable, and committed professional an opportunity to design from Day One (CAD Monkeys need not apply!). If this sounds appealing, and if you possess the skills listed below, what are you waiting for? Email your resume and portfolio today to [jrobinson@horizondesign-sa.com](mailto:jrobinson@horizondesign-sa.com).

Education and skills required include the following:

- Bachelors or higher degree in Landscape Architecture and / or Urban Planning
- Thorough understanding of basic design principles (scale, proportion, mass / void, etc.)
- Proven background with planting design in the Southern United States
- Prefer demonstrated experience designing, grading, and detailing vertical improvements
- Advanced computer capabilities (AutoCAD, MS Office, Excel, etc.)
- Strong graphic skills (Sketch-Up, Adobe, etc.)
- Solid understanding of geometry and spatial reasoning
- Ability to read, understand, and implement applicable regulatory requirements
- Pronounced desire to get off the bench and succeed
