

Environmental Design Studio, Inc. is an award-winning design firm based in Birmingham, Alabama. The firm maintains a diverse and thriving practice with a wide range of project types including mixed-use development, office, retail and, primarily, high net worth residential design projects.

We are seeking a project manager with 2-8 years of experience and a proven track record of disciplined work. The successful candidate will work under the two principals of the firm along with other team members. The position requires skill in most every phase of the design process; including hand-drawn conceptual sketches, color renderings for presentation to clients, and production of construction document sets. The position offers a competitive salary and benefits package that will be tailored to the successful candidate's experience level and qualifications.

The candidate should be highly focused, well organized and enthusiastic; demonstrate initiative; and possess exceptional problem solving skills. The candidate should possess excellent graphic communication skills, and must be proficient with VectorWorks or AutoCAD, Adobe Creative Suite, and SketchUp or other 3D visualization software. This is a project management position. We are seeking an individual that can demonstrate skills and talents mentioned above and show history of a strong work ethic, moral character and a willingness to learn from an experienced, award-winning staff.

Please visit our website at [www.environmentaldesignstudio.com](http://www.environmentaldesignstudio.com) for a sample of the type of work that we perform and the services that we provide.
