Creo Landscape Architecture is seeking a talented, forward-thinking designer for our San Francisco studio. We are looking for someone who is energetic and interested in expanding their knowledge of the profession and contributing to our firm's growth.

Our landscape architecture design firm has extensive experience in multiple realms of the built environment. We provide creative and high quality modern design on projects that vary in type from civic (urban plazas, parks, city streetscapes, transportation facilities), commercial (corporate campuses, health care facilities, mixed-use developments) and residential (high end single and multi-family).

**Position Description:**

We are looking for candidates with 4-6 years of experience who are inquisitive and passionate about landscape architecture. Our ideal candidate has versatile skill-sets, including experience creating high quality presentation graphics as well as construction documents.

Our candidate will work closely with principals and project managers. Our office culture provides opportunities for learning and growth within a supportive environment. We believe strongly that everyone has something to offer on each project.

**Skills:**

- AutoCAD
- SketchUp
- Indesign
- Illustrator
- Photoshop skills
- Hand drawing
