

W.M. Whitaker & Associates (WMWA) is seeking a talented and self-motivated project manager/landscape architect for our Chattanooga, Tennessee studio. Candidates should have 4-6 years of experience working in a professional design office and must demonstrate an ability to skillfully perform various tasks across all phases of the design process. Applicants must exhibit exceptional design and production skills, as well as experience managing projects from concept through construction. Individuals who showcase creativity, organizational and critical thinking abilities who can work in a fast paced, collaborative team environment are desired.

Firm Information

WMWA is an award-winning landscape architecture practice committed to providing high quality, regionally significant planning, site design, project administration and consulting. We strive to create designs of integrity that are timeless, serve the needs of clients, enhance the well-being of all living things and honor our philosophy that design must be of a place, collaborative, and sustainable.

Our work reflects an extensive knowledge of ecological systems, the built environment, fiscal responsibility and a collaborative design process. WMWA works at a wide variety of scales and projects and believes this diversity keeps our skills honed. We work closely with clients to understand their sites, address concerns, tackle challenges and exceed expectation. For more information see www.wmwala.com

Chattanooga is one of the most livable mid-size cities in the U.S. In the past decade alone, the city has won national awards for outstanding “livability”. Surrounded by mountains, rivers and lakes, Chattanooga offers a little bit of everything – a thriving downtown along the Tennessee River brimming with shops, dining and history and ample access to a wide array of outdoor activities.

Requirements

Interested applicants should send a resume and portfolio via email (PDF format) to land@wmwala.com. For files greater than 4MB please send a link for download. No phone calls, please.

Candidates must have a degree from an accredited LA program and 4-6 years of professional experience. Individuals should demonstrate the following skills:

- Experience with all aspects of project management including client interaction, consultant coordination, permitting, construction administration and field observation.
- Experience with all aspects of design including concept generation, graphic communication, design refinement and detailing.
- Experience working as part of a design team which includes clients, consultants, public officials and community stakeholders.
- Preferred experience in various market sectors including commercial, public, institutional and residential.
- Experience working on multiple projects simultaneously.
- Excellent graphic, verbal and written communication.
- Proficient with AutoCAD, Adobe Creative Suite, Microsoft Office and 3D modeling software (SketchUp or Rhino preferred).

WMWA is an equal opportunity employer. The position includes full health benefits, paid holidays/time off and salary commensurate with experience.
