

PROJECT MANAGER

Location: Fayetteville, GA

Company:

Pinewood Forrest is a unique new urbanist community being developed across the street from one of the largest purpose built studios in the nation, south of Atlanta, Georgia. With a desire to create remarkable experiences in a beautifully designed community, we are assembling a team that is willing to grow and make a positive impact on not only the built environment but also in people.

Description:

Pinewood Forrest is looking for a full time project manager with strong horticulture and design knowledge & interest who is willing to get their hands dirty and also spend some time behind the computer when needed.

Responsibilities:

Review landscape drawings, oversee and direct contractors, assemble budgets, create hand & CAD site plans, make field revisions, create presentations, pickup supplies, interface with current and future residents and other tasks as needed.

Qualifications:

- Bachelor's or Master's in Landscape Architecture or Horticulture.
- 2 + years experience in Landscape Architecture.
- Ability to manage multiple projects at once.
- Competency with relevant software: AutoCAD, Adobe Creative Suite, Sketch-Up, Microsoft Office.
- Experience with honey bees, wild flowers, fruit trees, asexual plant propagation, operating heavy equipment is a plus.
- Desire to constantly learn and willingness to work hard and be flexible.

Pinewood Forrest offers competitive salary and benefits.

Qualified candidates should email their resume, cover letter and portfolio to:
