

Osgood Landscape Architecture, Inc. is a landscape architecture firm based in downtown Asheville, North Carolina seeking an energetic, creative and motivated landscape architect/designer with 2-5 years of experience. Viable candidates will exhibit a passion for design, attention to detail and the desire to excel in the field of landscape architecture. Our firm is part of a unique Asheville and Charleston based collaborative design studio providing opportunities to work in a creative, fast-paced environment with other landscape architects, engineers, architects and artists. Together with our collaborative partners, we believe the creation of beautiful, thoughtful and impactful landscapes is an art form that should honor the history and context of a site while creatively responding to the needs and expectations of our clients.

Responsibilities will include:

- Participate in a collaborative, team-oriented design process from site analysis, concept development, product research, technical drawing production and construction observation
- Contribute to project branding and marketing strategies throughout the design and visioning process
- Prepare hand-drawn conceptual design diagrams, plans, sections and illustrations for client review
- Produce visioning documents, presentation graphics and renderings using InDesign, Illustrator and Photoshop
- Produce planting designs, landscape plans and plant schedules for projects of varying scales
- Provide grading and drainage designs with an emphasis on innovative stormwater management solutions
- Produce technical design development, permitting, and construction drawings using AutoCAD
- Carry out administrative assignments such as quantity takeoffs, cost estimates, file management, organization, etc.
- Write, edit, and assemble text for design presentations, technical specifications, reports, marketing documents and daily project correspondence
- Exhibit advancement into a project management role

Requirements:

- Bachelor's or Master's Degree in Landscape Architecture
- Proficiency in AutoCAD and Adobe Suite software; SketchUp a plus
- Creative, versatile, and dependable
- Goal-oriented with strong critical thinking and observation abilities
- Excellent writing, communication and presentation skills
- Ability to adapt to a dynamic, team-oriented studio environment
- Attention to detail, strong work ethic and time management skills are crucial requirements

Compensation:

Salary and benefits will be commensurate with experience.
