

## R. S. Walsh Landscaping, Inc.

8050 Penzance Blvd, Fort Myers, FL 33912  
239-768-5655 fax: 239-768-2970 [www.rswalsh.com](http://www.rswalsh.com)  
Landscape Architecture Business: Lic# LC26000301

**Position:** Landscape Designer Internship & Entry Level Landscape Designer

**Location:** Fort Myers, Florida.

R.S. Walsh Landscaping is a premier family owned and operated, full service landscape design/build Company that specializes in custom residential, commercial and public works. With a specific focus on Sanibel and Captiva Island we strive to create lush, tropical oasis landscapes that are inviting for their users. We take pride in customizing each design to fit our clients' needs while also embracing our creative capacity as landscape designers and architects.

R.S. Walsh is a full design, install and maintenance company. In this regard you will be asked to assist in cross disciplinary work with builders, architects and engineers alike, including subcontractors from irrigation to lightings techs. Responsibilities would include site inventory and analysis, communication and coordination with clients and contractors, basic knowledge of the Florida fauna, strong communication and organizational skills and assisting in the creation of landscape plans and presentations.

We are accepting resumes for immediate openings in the design department for landscape design interns and entry level landscape designers/architects. The ideal candidate would be well organized, creative and excited to collaborate and learn from our diverse team of designers and landscape architects.

R.S. Walsh Landscaping is a company who prioritizes culture and education. From our multitude of company outings throughout the year to monthly Lunch and Learn presentations, we make it our priority to grow our team to be the best they can be. If you are looking to learn fast and grow significantly in the field of Landscape Architecture see below for qualification details.

Intern Requirements include current student of Bachelor's Degree in a landscape architecture program and experience with the latest AutoCAD, Land, Microsoft, Adobe Creative Suite and Sketch up programs. We are looking for energetic and self-motivated individuals who possess strong communication skills and can take the initiative on a project.

Entry Level Landscape Designer/Architect Requirements include a graduate with a Bachelor's Degree in landscape architecture, some horticultural knowledge of southwest Florida plants. Experience with the latest AutoCAD, Land, Microsoft, Adobe Creative Suite and Sketch up programs is ideal.
