

Re: Associate and Sr. Associate Positions

LAI is a boutique design firm providing a multi-disciplinary approach to each project. We are architects, land planners, landscape architects, visual media & graphic design professionals who provide real estate development solutions. We have offices in Denver and Houston and are actively working on projects in 3-5 states at any given time.

Our work is comprised of large scale master planned communities of which we are experts and nationally recognized. That work allows us to leverage our architecture studios to provide club house & amenity center design, multifamily, industrial, resort & hospitality

We have immediate openings for both midlevel and senior level staff in our Denver offices.

Associate – 3-5 yrs. of experience practicing landscape architecture and land planning & entitlements. You must be proficient in AutoCAD, photoshop, and putting together planning submittals, construction documents, irrigation and site/land planning design skills are a plus.

Sr. Associate – 7-10 yrs. of experience practicing landscape architecture and land planning & entitlements. You must be proficient in AutoCAD, project management (organizational skills as well as written & verbal communication skills are a must). Paramount to this position is and putting together and leading planning submittals, construction documents as well as a track record for professional collaboration with subconsultants (in house architects, external engineers, & environmental consultants) and clients, site/land planning design skills are also critical in this role.

In order to be considered for these positions, Please send a letter of introduction stating which position your applying for along with a portfolio of your work examples no larger than 10mb as well as your resume to:

Ken Puncerelli, CEO - LAI Design Group kpuncerelli@laidesigngroup.com **NO PHONE CALLS PLEASE.**
