

## **Landscape Architect Project Manager**

Savino & Miller Design Studio, is an award-winning firm, providing design services in Landscape Architecture, Architecture, Urban Design and Planning since 1993. The firm consists of a multi-disciplinary group of professionals dedicated to improving and transforming both our open spaces and built environments through artistry and ecological sensitivity. Our diverse portfolio includes a range of projects in both the private and public sectors of different scales and scope: from residential, hotel, and commercial spaces to large urban parks, site master planning, and streetscape designs.

Savino & Miller Design Studio is seeking a full-time Landscape Architect/Project Manager to join our firm in Miami, Florida. The ideal candidate will be creative, organized, collaborative, with strong leadership and communication skills. The candidate should have experience through all aspects of the design and construction process, and we are especially interested in people with strong design skills.

Working for our firm offers the benefits of a boutique-style office with the opportunity to work on high-profile projects in South Florida. At Savino & Miller Design Studio, we appreciate creativity and hard work, but value the work-life balance. [www.savinomiller.com](http://www.savinomiller.com)

### **Duties include:**

- Project management for private and public sector projects, coordinating team production of presentation packages, construction plans, and specifications.
- Developing and refining design concepts through all phases of design.
- Leading and participating in project meetings, with appropriate documentation.
- Communicate with project team members, client representatives, review agencies and others.

### **Qualifications:**

- Degree from an accredited Landscape Architecture program: MLA a plus.
- Registered Landscape Architect preferred.
- Minimum 4 Years of Landscape Architecture Experience.
- Proficient in AutoCAD, Adobe CS and SketchUp. Revit, InDesign, and Lumion a plus.
- Proficient in document preparation from Schematic Design to Construction Documents.
- Experience as project manager and team leader for urban public sector/space projects.
- Proficient in grading design, paving/hardsurface design, construction detailing, and technical components of landscape architecture.
- Local Plant material knowledge a plus.
- Lighting Design knowledge a plus.
- LEED experience a plus.
- Excellent written and presentation skills.
- US Citizenship, Residency or Work Permit to apply.
