

**PLACE is seeking talented Landscape Planting Designer/Arborist(s)**

**Planting Designer/Landscape Architect (12+ yrs. experience)**

**Position(s)** require a degree in landscape architecture, design leadership, and extensive horticulture knowledge. Comprehensive experience with planting design theory and composition, plant nomenclature, selection and procurement, and ecologically sustainable plant use. The ideal candidate will possess 12+ years of relevant experience, strong communication, presentation and interpersonal skills with a passion for developing conceptual design to construction implementing; striking a balance between technical issues of regional vegetation requirements, soil types, climate, and coverage of physical and visual characteristics to aesthetic considerations including color, form, and seasonal variation. Professional licensure and ISA arborist certification is desirable. Equivalent combinations of credentials and experience will be considered.

**PLACE** is a design studio committed to creative landscape architecture, planning, art and urban design in a collaborative atmosphere– the foundation of our practice. We embrace stewardship of the natural world, advance bold ideas, champion vanguard concepts, and create memorable experiences of a timeless craft. Reflected in our partnerships worldwide is our dedication to design excellence and innovative ecological practices, from intimate landscapes to large scale urban development and master planning efforts. PLACE unequivocally represents a creative culture where a desire for fulfilling our distinctive lifestyles honors lasting relationships.
