San Francisco Project Designer, Position Open

Studio- MLA is seeking for a Project Designer, with 5-6 years of experience.

Mia Lehrer + Associates (MLA) is now Studio-MLA. Putting studio first, our new name celebrates our growth, diversity and our entire talented team. Founder and president Mia Lehrer continues to lead the studio in designing and advocating for landscapes that inspire human connection, cultural expression, and reverence for nature through landscape architecture, urbanism, and planning.

We believe in the transformative power of landscape design to enhance the livability of urban environments, connect people to natural systems, and create meaningful spaces for recreation, reflection and exploration. Our continued allegiance is to address complex urban issues with creativity, pragmatism and responsibility.

Studio-MLA of San Francisco has some incredible and exciting projects on the boards. The firm applies a comprehensive and intensely creative approach to all projects, which vary in scale from large urban projects that engage community members and stakeholders to institutional buildings where collaboration and coordination of architecture and site are the primary objective. Project work will vary but will include large infrastructure projects and projects addressing environmental issues that require interfacing with multi-disciplinary teams.

The Project Designer will support the project production in completing all phases landscape architectural projects developing conceptual design, schematic design, design development and construction document drawing packages.

Candidates must have project design and construction documentation skills and be knowledgeable of construction materials, details, methods and standards. Will prepare computer generated CAD documentation, illustrative graphics and presentation material. Attention to detail, consistency and completeness are important. Must possess strong verbal and written communication skills. Ability to meet deadlines, respond to timely project delivery and work effectively with minimal supervision is also required. Strong visualization skills, and ability to work and design three dimensionally using programs such as Rhino, V-Ray, Lumion and Sketch Up and other programs including InDesign, Illustrator. Revit is a plus. Must have deep knowledge of Autocad and working knowledge of Microsoft Office. Experience with LandFx recommended but not required.

Please send resume and portfolio to Patricia Akinaga: patricia@studio-mla.com.
