

Are you interested in a rewarding career? Do you want to improve the quality of your life? At **RJM Design Group**, we love what we do, and from what we've seen and heard, a lot of other people like what we do too.

RJM Design Group is an established, award-winning California Landscape Architectural Design Firm, seeking enthusiastic, talented, and well-versed individuals for a career in our Southern California office, working with other creative design professionals gifted in communication and people skills, design, graphics, contract documents, and construction.

Our Landscape Architects wear many hats and are knowledgeable on a variety of subjects, blending science and art in seamless creations of function and beauty. At **RJM**, we collaborate on a wide variety of project types ranging from master-planned communities, park and recreation master plans, campus planning, urban design, community and neighborhood parks, sports and aquatic facilities, community centers, streetscapes, and cemeteries. We are looking for individuals with the integrity, creativity, and enthusiasm to join our team in preparing inspiring conceptual design illustrative exhibits and producing clear, logical and accurate construction documents.

Here at **RJM**, we specialize in the planning and design of facilities with an emphasis on community consensus-building workshops. We believe in the power of community decision-making and listen to stakeholders who will use, maintain, and ultimately live with the final product to produce "*community inspired spaces*". We infuse this process with our professional knowledge and design creativity.

If you are interested in making a significant contribution of your talents in helping to shape the environment around you, we encourage you to send a resume outlining your experience as well as inspired examples from your work portfolio to:

employment@rjmdesigngroup.com

RJM provides a supportive work atmosphere along with a comprehensive compensation and benefits package to match your qualifications. Our office is nestled between the San Juan Capistrano Mission and the Metrolink/Amtrak rail station, just steps away from the charming shops and restaurants of historic San Juan Capistrano.

Current Employment Opportunities

Job Captain

Education / Skill Requirement: A positive team attitude and creative project approach, as well as a bachelor's degree in a related field (planning, landscape architecture, architecture) from an accredited university is required. AutoCAD, Adobe Creative Suite, SketchUp, ESRI GIS, and Microsoft Office are beneficial, but please list any additional software programs that define your proficiencies.

Responsibilities: Work with **RJM** project team members to design, develop, and refine drawings for land development projects. Prepare plan documents according to established standards. Develop solutions to technical problems. Prepare design concepts, design development drawings, and construction documents including the preparation of presentation graphics and drawings. Prepare landscape planting plans. Work in the office and in the field to measure, monitor and check construction progress. Assist with design take-offs and cost estimates for project budgets.

Project Landscape Architect

Education / Skill Requirement: A positive team attitude and creative project approach, as well as a bachelor's degree in Landscape Architecture from an accredited university is required, as well as a California landscape architect's license. A minimum of four (4) years of relevant experience. In-depth understanding of neighborhood, community, regional, linear, and sports park design. Knowledge of current professional codes, laws, computer applications and trends. AutoCAD, Adobe Creative Suite, SketchUp, and Microsoft Office are beneficial, but please list any additional software programs that define your proficiencies.

Responsibilities: Ability to work with **RJM** project team members to graphically communicate concepts, ideas, and final master plan packages. Assist with project presentations at public meetings and hearings. Preparation of comprehensive construction plans and details, and writing specifications (CSI and Greenbook formats). Leading design development decisions and mentoring staff in the production of hand drawn design exhibits. Assistance with preparation of proposals in response to Requests for Proposals (RFP's) and Requests for Qualifications (RFQ's). Assistance with client development research, developing presentation strategies and the interview process.
