

The Houston office of Clark Condon is seeking experienced landscape architects with strong design, graphic, and communication skills. Applicants should be highly motivated and enthusiastic with a Bachelors or Masters Degree in Landscape Architecture. A minimum of 3 years experience should include a proven track record of completed design work and an understanding of all aspects of the design process from design and detailing to construction documentation and construction phase services. Candidates should possess the ability to take charge of a project and find creative solutions in the context of the project and the clients' needs.

Skills: AutoCAD, Photoshop, and SketchUp. Lumion, Revit, and strong hand graphics are a plus.

Clark Condon's high-energy team is comprised of motivated individuals that think creatively and provide unique solutions to our projects. Our modern studio atmosphere creates openness and unity and encourages collaboration amongst the team. Our portfolio includes a wide variety of project types, including communities, parks, corporate campuses, institutions, and commercial and mixed-use facilities. We have a passion for the natural environment; therefore, we create spaces that are innovative, sustainable, and interactive to enhance the connection between users and the places they inhabit.

Clark Condon offers a competitive compensation package, 4.5-day workweek, interoffice flex space, corporate gym memberships, and several company events each year. Compensation package includes: a safe harbor 401K plan with 3% employer contribution; profit sharing; bonus program; vacation and paid holidays; annual education stipend; health, life, vision, dental, and disability insurance; and a flex spending account.
