

Landscape Architect

- [Brighton, MI Website](#) PEA, Inc.

PEA is growing and we are looking for a creative and talented Landscape Architect to join our team!

Our Landscape Architect position will provide an exciting opportunity for someone who wants to grow and develop working along with a multidisciplinary team on a broad range of land development projects. Projects include healthcare facilities, regional trails, urban plazas, residential developments, large commercial centers, and corporate campuses.

The position will assist senior staff with their ongoing landscape design projects. Tasks will include assisting in the preparation of landscape plans, site plans, hardscape details, construction drawings, site analysis, and presentation graphics.

PRIMARY DUTIES AND RESPONSIBILITIES

- Collaborates with senior staff on the design packages for projects such as; healthcare facilities, regional trails, urban plazas, residential developments, large commercial centers, and corporate campuses.
- Analyzes data on conditions such as site location, drainage, or structure location for environmental reports or landscaping plans.
- Integrates existing and proposed land features and structures into designs.
- Prepares graphic representations of plans using CAD software.
- Selects appropriate materials for use in landscape designs.
- Analyzes environmental reports on land conditions, such as drainage and energy usage.
- Assists in the preparation of landscape plans, site plans, hardscape details, construction drawings, site analysis, and presentation graphics.
- Reviews landscape work to ensure compliance with specifications, evaluates quality of materials or work.
- Coordinates the preparation of project drawings, exhibits, and calculations with other engineers, designers and technicians.
- Communicates with project team members, client representatives, review agencies and others as appropriate to the project.
- Seeks appropriate guidance in resolving various project related issues.
- Manages time effectively, organizes, and works on multiple projects simultaneously in order to meet project deadlines and client needs.
- Visits project sites to review conditions as appropriate.
- Performs other duties assigned.

FORMAL EDUCATION, LICENSES AND CERTIFICATONS

- Bachelor's Degree in Landscape Architecture from an accredited program.

KNOWLEDGE AND EXPERIENCE

- 1-3 years of experience preparing schematic design, design development, and construction documents for various site development projects.
- 1-3 years of experience with preparation of hardscape and landscape plans for site plan approval and construction documents.
- Working knowledge of landscape and native plants in the Midwest region.
- Working knowledge of typical computer software programs used for landscape design (AutoCAD, Photoshop, Microsoft Office, Sketchup, etc.)

COMPETENCIES AND PERSONAL ATTRIBUTES

- Excellent verbal, written, and graphic communication skills.
- Orientation toward teamwork and collaboration.
- Willingness to perform work collaboratively in a multi-disciplinary team environment.
- Ability to manage a variety of tasks on multiple projects in a fast-paced environment.
- Job requires being cooperative with others on the job and displaying a good-natured, positive attitude.
- Ability to creatively problem-solve, persistently complete assigned tasks efficiently and exercise sound business judgment.
