

## **Company Profile**

Since 1992 Keith Willig Landscape Architecture and Construction has designed and built residential landscapes for Bay Area clients from Hillsborough to Carmel. Principal Keith Willig believes, as his clients do, that the landscape surrounding a home should extend the available space in which a family lives, plays, and works. Willig creates landscapes that combine functionality, comfort, respect for the environment, and distinct visual appeal.

Keith Willig's firm is one of the few dedicated to residential projects, licensed in both landscape architecture and construction. Most clients select the firm for both design and build services.

Keith Willig brings extensive design and construction expertise to each project. As a licensed landscape architect, Willig follows a proven professional process that includes research, design development, preliminary design, and construction drawings. As a licensed landscape contractor, he ensures the integrity of the design through personal selection of materials and site supervision of each project.

Examples of KWLA's completed projects can be found at <https://www.houzz.com/pro/kwlsinc/keith-willig-landscape-services-inc>.

## **Job Description**

KWLA is seeking a well-rounded, enthusiastic, and motivated Landscape Designer to grow with us as the firm takes on an increasing number of residential projects. The firm specializes in design and construction of sustainable residential landscape architecture and is aiming to hire an accomplished designer who shares excitement in the space. KWLA is a small, busy office, and the qualified candidate must be comfortable working closely with the other firm members to collaborate in the creation of project materials. For the right candidate, this position presents the opportunity to develop and grow with the firm by providing an integral role to our day-to-day operations.

## **Our Ideal Candidate**

- Has three to five years' experience in all aspects of design and construction documentation, including but not limited to: creating diverse and detailed landscape design documents, providing assistance to projects teams and collaborating closely with clients through all phases of the design process, and a deep understanding of the key principles of landscape architecture
- Excels at working closely with other landscape architects to deliver design/drafting content and packages from the conceptual stage through to planning application and final construction stage
- Is skilled at organizing project workloads efficiently and overseeing multiple design projects concurrently

- Is proficient at researching and assessing building products, materials, methods and systems and using that knowledge to develop functional, innovative and elegant designs
- Possesses a keen interest in sustainable residential landscape architecture, ecological design initiatives, and environmental issues/solutions

### **Education and Experience**

- A Bachelor's degree in Architecture, Environmental Design, or equivalent field from a four-year college/university (candidates with a Master of Landscape Architecture degree are highly preferred)
- Three to five years related experience and/or training in a design office environment
- Proficiency in AutoCAD, Adobe, Microsoft Office, SketchUP
- An understanding of WELO requirements and a working knowledge of California native plants

### **Further Application Information**

- KWLA provides an employee benefits program including holidays, sick leave, vacation, and medical insurance
- Our firm pays close attention to individual strengths and is committed to fostering growth opportunities for our staff
- Salary of qualified candidate will be commensurate with experience
- SF Bay Area residents are preferred

To apply, please submit a cover letter, current resume, and a curated portfolio or samples of relevant work in PDF format to [grant@keithwilliglandscape.com](mailto:grant@keithwilliglandscape.com).
