

NYC Parks is an award-winning city agency that designs and builds public spaces for New Yorkers to connect, play and enjoy. These public spaces, representing nearly 30,000 acres or 14% of the city's land, encompass natural areas, parks, playgrounds, beaches, ballfields, basketball courts, athletic fields and pools.

The Landscape Architecture unit in the Capital Division is the creative force that imagines and defines the aesthetics and usage of new and refurbished public spaces. These designs impact neighborhood growth, public health and fun in communities throughout the five boroughs of New York City.

New York City Parks and Recreation is currently seeking landscape architecture professionals to work on moderate and complex landscape architecture projects. Candidates will have the opportunity to work on a wide gamut of assignments from a local park refurbishment to a complete redesign of newly acquired properties.

NYC Parks is one of the country's largest employers of landscape architects. You will enjoy the camaraderie found at Parks while working for the public good. NYC Parks offers competitive pay and a generous benefits package that includes pension, excellent health benefits, competitive vacation/sick days and a healthy work-life balance.

We are an Equal Opportunity Employer.

Visit [www.nyc.gov/parks](http://www.nyc.gov/parks) to see our current listings. Our site is constantly updated with new opportunities, so be sure to check back regularly. Please note that you must apply to each position individually. If you've applied for a job with us previously, feel free to apply again for these new positions. We look forward to working with you in New York!

We are looking for a range of skill sets. Please look at each posting for the required skills.
