

Landscape Architect/ Project Manager

Creative Design Resolutions, Inc. (www.creativedesignresolutions.com) is a growing design firm located in Brentwood Maryland, specializing in bridge and highway aesthetic designs for Departments of Transportation and their outsourced engineering firms. We have a collaborative, team atmosphere. We stay up to date on technological advances in the profession and incorporate them into our work. This is unique and excellent opportunity to participate in all facets of aesthetic design of highway infrastructure.

We are currently seeking a project manager-level landscape architect to join our team and grow with the company. This person will be working on multi-disciplinary projects and using their expertise and creativity to develop conceptual design, construction detail design and provide creative problem-solving skills thru-out the design process. The ideal candidate will have 8-10 years of experience in project management, project coordination, client interaction and preparation of construction drawings and specification documents. They must also be self-motivated with an enthusiastic, team-oriented attitude. Proficient in AutoCAD, Civil 3D, Adobe Photoshop, and MS office are essential. Additional knowledge and experience with 3D Max and After Effects, construction and onsite experience is preferred.

Required Qualifications:

- Minimum of eight (8) years of experience in the landscape architecture field, with an emphasis on transportation, public infrastructure, and civic projects for municipalities, DOTs, and private sector clients.
- Bachelor's and/or Master's degree in Landscape Architecture from an accredited college or university is a must.
- Registered Landscape Architect (RLA) license is desirable but will consider other experience.
- Solid understanding of GIS use, principles, data standards and projections is expected.
- Demonstrated experience with AutoCAD and Civil 3D.
- Proficiency and working knowledge of various computer-based programs and tools for project execution including MS Office (Word, Excel, Access), Adobe Photoshop and/or Adobe Illustrator.
- Ability to work collaboratively within a creative, professional, team environment
- Proven ability to meet deadlines without compromising the design/technical intent
- Ability to organize and perform multiple tasks concurrently and efficiently
- Excellent time management and organizational skills
- Accuracy and attention to detail
- Strong basic math skills
- Excellent written and communication skills
- Must work well in a team environment and collaborate across departments throughout the organization
- Knowledge of sustainability, integrated design and LEED guidelines. (LEED certification not required, but a plus)

Preferred Skills, not required:

- Experience with 3D modeling software, specifically 3D Studio Max, and texturing skills.
- Experience with the Adobe Creative Suite for image editing, especially Adobe After Effects for motion graphics, video compositing, and post-processing.

Typical job responsibilities will include:

- Developing conceptual design, construction detail design
- Preparing construction plans using AutoCAD/Civil 3D
- Writing specifications and cost estimates
- Planning and coordinating projects with limited supervision
- Participating in preparing proposals, project scope, schedule, and budget

To be considered for this position, the applicant must submit a work sample with their resume and cover letter (Max. of 6 MB) to creativedesignresolutions@gmail.com. No phone calls.
