

Are you a creative, out-of-the-box thinker who pays attention to detail and works well under pressure in a group setting with a team of like-minded individuals? As a landscape designer at HMMH, you will be working with a team of innovative Landscape Architects and Civil Engineers, in a studio environment, to provide design solutions for a multitude of project and client types. This is a role for a creative individual with excellent aesthetic judgement and willingness to collaborate in a team environment. You will be an integral part of every stage of the project process, from conceptualization through construction administration.

You'll join a team of creative individuals that since 1976, has provided the public and private sector with a wide range of services including Civil Engineering, Land Planning, Land Surveying, and Landscape Architecture. HMMH specializes in a multidisciplinary team approach with clients, other professional consultants and internally for many phases of a project. HMMH is client service focused, concentrates on continued growth and sets the standard as a leader among Bay Area multidisciplinary design firms.

Resumes, cover letters and samples of work demonstrating landscape design and production using the tools listed below should be submitted to - bsowa@hmmca.com

LANDSCAPE DESIGNER 0-5 years / LANDSCAPE ARCHITECT 5-10 years – Duties include project coordination from conceptual design through working drawings. Candidates must be familiar with design and construction document preparation with attention to detail. Candidates must be proficient in hand sketching, color rendering, AutoCAD, Sketchup, Adobe Photoshop and Illustrator. Knowledge of Planning and Engineering will benefit the candidates' integration into the company's multidisciplinary approach. The ideal Landscape Architect candidate will have experience in preparing and managing RFP/RFQ responses and have a body of work in parks, trails, open space, play areas and local public projects. Our clients include Caltrans, VTA, city park and recreation departments and private developers. Our Landscape Architecture's work environment is studio based with a focus on teamwork, collaboration and transparency. We are dedicated to the production of high quality documents and exceptional client service. Licensed or licensure track is ideal for these positions. www.hmhlstudio.com
