

Landscape Architect / Level II

WRT is a team of landscape architects, planners, urban designers, and architects based in Philadelphia and San Francisco practicing both nationally and internationally. WRT's practice seeks to create impact in the communities we serve by championing our firm's environmental ethos of designing with nature and reinforcing urbanism through our innovative work in design and planning. Our multidisciplinary team values the impact of our collective approach to create simple solutions for complex problems across multiple scales.

WRT is seeking a talented **Landscape Architect or Landscape Designer** to join the team in the Philadelphia office. Our sensitive and engaging approach to transforming open space creates places that let people experience and understand their geography and natural systems, reflect on local heritage and culture, and maximize the value ingrained in their landscape. We're looking for a highly motivated candidate that shares WRT's values and collaborative spirit to work on a diverse variety of public and private landscape project types such as parks, plazas, waterfronts, streetscapes, cultural and civic spaces, and academic campuses.

Responsibilities include:

- Informing projects with design ideas
- Preparing renderings & visual communication graphics for presentations
- Preparation of construction documents
- Managing project tasks and priorities
- Collaborating with multidisciplinary staff to solve complex design challenges integrating landscape and architecture within a design and planning context

The ideal candidate will have:

- A Bachelor's Degree in Landscape Architecture
- 5-10 years of professional experience
- Exceptional design skills with the ability to conceptualize a project at a large scale and develop the project through to a detailed resolution while demonstrating design innovation and creativity
- Experience in the preparation of technical documentation from early stage conceptual development through construction administration phases, as well as master planning documentation
- The ability to clearly articulate design concepts, processes and solutions via verbal and written communications
- Outstanding graphic representation and are required to be proficiency in AutoCAD, Rhino, SketchUp, Adobe Creative Suite (InDesign, Photoshop & Illustrator) and Microsoft Word (Word, Excel and Power Point)
- Licensure, experience with public facilitation, and project management are not required but are strongly preferred

Qualified candidates looking to apply for this position should use the following link: <http://www.wrtdesign.com/contact/careers> or go directly to WRT's website, www.wrtdesign.com, and follow the career page link. Please submit your cover letter, resume and work samples.

WRT is an equal opportunity/affirmative action employer. We strongly value diversity and an inclusive workplace.
